How it Works

It's breezy! We create a merchant account for you once you give us the go ahead..

Together we work on creating the software profile and blog review. You can upload eBooks and other resources for publishers from your merchant dashboard.

If you are on the advanced plan, you get access to the editorial column on our blog to publish your content.

If you are on the premium plan, we work together to generate authentic reviews on your profile and share a badge with you.
